From small business to global clients, support, technical and labor roles, her dynamic team of Certified Staffing Professionals develop collaborative relationships on a national scale.

Our clients range from Tier I, Tier II and MSP relationships. We provide candidates for Flexible, Remote and Direct roles. Here is what one partner had to say recently about STAFFusion:

"We have several STAFFusion temps now and they are doing great! Your agency is the fastest to respond and we have had the best people from there so far this year (even better than a local agency here in town). Thanks for your great work!"
